

Your goals, practiced *all week long*.

Your time with a student is short. VizyPlan turns each goal into a story, routine or First/Then board where the student is the one in every picture, then sends it home in one tap.

One photo of the student

MORNING ROUTINE
Get ready for school

SOCIAL STORY
A new experience, step by step

FIRST / THEN
Grab shoes, then tie them

COUNTDOWN
Days until the big trip

FEELINGS
Calming my angry feelings

NEW PLACES
My first day of kindergarten

CHOICE BOARD
Pick what comes next

One photo. Seven ways it shows up. One goal, carried into every setting.

Built in session, ready to edit.

In school

PUSH-IN, PULL-OUT AND THE CLASSROOM

- ✓ **Social stories and scripts.** Greetings, turn-taking and asking for help, read aloud for practice.
- ✓ **Visual sequences.** Handwashing, zippers, shoes and sensory breaks, broken into small steps.
- ✓ **First/Then and reinforcement systems.** Token boards, charts and reward steps that fit the behavior plan.
- ✓ **One library, every discipline.** SLPs, OTs and BCBAs build from the same visuals, editable before they go home and printable as cards.

Outside school

CARRYOVER FAMILIES ACTUALLY USE

- ✓ **Share in one tap.** To the classroom team, paraprofessionals and the family at once. Free for families.
- ✓ **See what families opened.** Know whether the dentist story got used before your next session.
- ✓ **Notes to next steps.** Record a session with consent, and VizyPlan drafts goals and notes for you to review.

En español

SPANISH BUILT IN

The whole app switches to Spanish, with every story and step read aloud in a natural Spanish voice. Build the routine once, and a Spanish-speaking family runs it at home that night.

ALSO IN THE APP

Visual timers

Countdowns for transitions and activity limits, inside the routine.

Calming activities

Color breathing, happy-place visualization, five senses, count to ten.

Calming Frequency

Gentle sound that paces the breath slower. No wearable needed.

Emotion check-ins

A student taps how an activity felt. Weekly patterns show the hard days.

Group calendar

Your whole caseload's schedules in one view.

Calming features support calm and focus. They are not a medical device and not a substitute for care from a qualified professional.

Heard

FOR THE SOUNDS THAT AREN'T WORDS YET

A parent labels the sounds their child already makes, and VizyPlan learns to recognize them on the phone, then offers the meaning out loud. Matching runs on the device, and only a parent can turn sharing on.

COPPA compliant

FERPA school official

Photos never train public AI models

DPA and SDPC addendum available

Founded by an autism dad and an autism mom who is an SLP.

vizyplan.com/schools

\$150/year per specialist.
District licensing available ·
partners@vizyplan.com

One shared plan per student. *Ready for approval.*

Teachers, paras, related-service staff and families all work from the same visual schedule for each student, so accommodations follow the child from the classroom to the kitchen table.

Grounded in practices your team already uses

Visual supports and social narratives are both identified as evidence-based practices for autistic students. VizyPlan makes those supports faster to build and personalizes every picture with the student's own photo, so staff spend less time preparing materials and more time using them.

Steinbrenner, J. R., et al. (2020). Evidence-Based Practices for Children, Youth, and Young Adults with Autism. National Clearinghouse on Autism Evidence and Practice, UNC Frank Porter Graham Child Development Institute.

Student privacy

WHAT YOUR PRIVACY OFFICER WILL ASK

- ✓ **COPPA compliant.** Verifiable parental consent before any student photo is collected. No behavioral advertising, no sale of student data, and deletion on request.
- ✓ **FERPA: we act as a school official.** VizyPlan operates as a school official with a legitimate educational interest under 34 CFR 99.31(a)(1)(i)(B). Records stay under the district's direct control and are never redisclosed.
- ✓ **Encrypted** in transit and at rest. Photos and generated images never train public AI models.
- ✓ **Agreements on request.** Data Privacy Agreement and Student Data Privacy Consortium (SDPC) addendum available.
- ✓ **Role-based access** for staff and parents, with an audit log.

Works with what you have

NO NEW HARDWARE

- ✓ **Any modern browser**, including Chromebooks and shared classroom devices.
- ✓ **Apps** for iPad, iPhone and Android.
- ✓ **Print-ready picture cards** for low-tech classrooms, hallway boards and sensory rooms.
- ✓ **Spanish built in**, with stories and steps read aloud for Spanish-speaking families.
- ✓ **Families join free** when school staff share with them.

Pricing

START SMALL, SCALE WHEN IT WORKS

Individual specialist (SLP, OT, BCBA)	\$150/year
Building or district license Based on student profiles and staff seats	Custom quote
Families, when shared by school staff	Free

Getting started

FROM ONE CLASSROOM TO DISTRICT-WIDE

- 1 Pilot with one classroom**
Or one specialist's caseload.
- 2 Onboard your team**
Training for special education staff and paraeducators.
- 3 Scale**
Building-wide or district-wide with volume pricing.

"School and home shouldn't speak different languages about the same child. We built VizyPlan so they don't have to."
